Engineering Centre of L&T Hydrocarbon Engineering receives Intergraph International Golden Valve Award 2014

Plaque received during the ceremony

L&T-Engineering Centre, Mumbai won the prestigious Intergraph International Golden Valve Award 2014 at the HxGN LIVE conference 2014, held at Las Vegas USA from 2nd June to 5th June.

Intergraph is a leading company in providing next generation plant, offshore & material handling design solutions. HxGN and Intergraph Corporation, USA organize the Golden Valve competition which showcases the expertise of its customers using Intergraph Process, Power & Marine Solutions software.

LTEM's entry was judged the 2nd best in the 'Virtually Complex' category amongst numerous entries received from world-renowned engineering companies.
